@MrsMorgansClass This is my first year teaching JUST math and I want to make the most of it. Trying to figure out workshop time. #2ndchat

02-Aug-12 00:12 | amynwaller

@MrsMorgansClass it is where students work individually on tasks/centers so the teacher can pull groups/individuals. #2ndchat

02-Aug-12 00:12 | liveimagination

My challenge with math is that I tend to do too much whole group teaching because math centers are hard for me to manage #2ndchat

@NikiOhsBarnes We use Chicago/Everyday Math for curriculum. I like the games but not crazy about how the program spirals. #2ndchat

02-Aug-12 00:13 | NikiOhsBarnes

@MrsMorgansClass It's a 'supplement' to the curriculum. There are correlations made between our textbooks and the FSiM instruction. #2ndchat

RT @liveimagination: @MrsMorgansClass Reteach after doing whole group. #2ndchat

02-Aug-12 00:44 | smrthompson

@MrsMorgansClass I have done both. It depends on the stdts. Some classes do better whole group 1st & then small. Sometimes small 1st #2ndchat

02-Aug-12 00:44 | missmac100

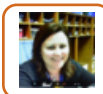

@gela522 Wow! 7th grade math! I can't even imagine teaching that. LOL! Play games and do other fun math activities for review. #2ndchat

02-Aug-12 00:45 | MrsMorgansClass

A6: Reteach in small groups after teaching whole group #2ndchat

02-Aug-12 00:45 | marneyc29

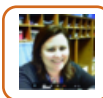

Sometimes the whole group lesson takes so long and they check out. Thinking about going to short mini lessons w/centers in between. #2ndchat

02-Aug-12 00:48 | MrsMorgansClass

is anyone else teaching with Common Core Standards? #2ndchat

02-Aug-12 00:48 | liveimagination

@mrsdporte Every Wed (mostly) at 7:00pm CST #2ndchat

02-Aug-12 00:49 | MrsMorgansClass

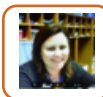

@liveimagination all except 4 states I think have to use common core #2ndchat

02-Aug-12 00:49 | missmac100

@liveimagination me! #2ndchat

02-Aug-12 00:49 | NikiOhsBarnes

@mrsdporte Welcome! Jump right in - we are talking about math! #2ndchat

02-Aug-12 00:50 | MrsMorgansClass

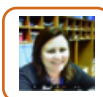

@MrsMorgansClass I have been thinking: I talk/teach too much. They need time to show me they understand. #2ndchat

02-Aug-12 00:50 | missmac100

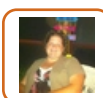

@NikiOhsBarnes longer than I want - I try and set the visual timer for 15 minutes to remind me to stop. #2ndchat

02-Aug-12 00:50 | GeorgetteNairn

I am in Texas - we do not use Common Core. #2ndchat

02-Aug-12 00:50 | MrsMorgansClass

@missmac100 @liveimagination #2ndchat we are slowly implementing it in IL, first at elementary then next year in full swing in jr high

02-Aug-12 00:51 | gela522

@missmac100 thanks! K - 2 started last year in our district and the upper grades are starting it this year. #2ndchat

02-Aug-12 00:51 | liveimagination

I want to do a mini lesson and then have a GOOD problem/game for them to solve using that skill #2ndchat

02-Aug-12 00:51 | missmac100

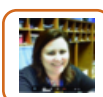

@NikiOhsBarnes has it been a hard adjustment? #2ndchat

02-Aug-12 00:51 | liveimagination

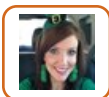

@missmac100 that is a great reminder! I think that is a point for improvement for many teachers #2ndchat

02-Aug-12 00:51 | iHeartLiteracy

Using the mini-lesson & center rotation a few times is keeping with the Daily 5 concept and may just work! #mywheelsarestillturning #2ndchat

02-Aug-12 00:51 | MrsMorgansClass

@MrsMorgansClass I will be doing math first thing this year. I am also going to exp w/ centers. Just got some books on it. #2ndchat

02-Aug-12 00:53 | mrsdporte

@MrsMorgansClass I find if I plan a math small group/center rotation once or twice a week, I don't get overwhelmed #2ndchat

02-Aug-12 00:53 | missmac100

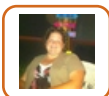

@MrsMorgansClass @missmac100 me too! something that keeps them engaged and excited about math! #2ndchat

02-Aug-12 00:53 | liveimagination

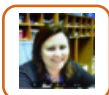

@MrsMorgansClass Now to come up with the "good" problems. #2ndchat

02-Aug-12 00:53 | missmac100

@marneyc29 #2ndchat I love hearing the questions students have, especially when in small groups!

02-Aug-12 00:53 | gela522

Ok, so we all agree that whole group lessons need to be short - easier said than done. Would breaking it up into smaller work? #2ndchat

02-Aug-12 00:53 | MrsMorgansClass

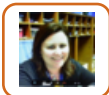

RT @missmac100: @MrsMorgansClass I find if I plan a math small group/center rotation once or twice a week, I don't get overwhelmed #2ndchat

02-Aug-12 00:54 | MrsMorgansClass

02-Aug-12 00:54 | GeorgetteNairn

@MrsMorgansClass I think we need to look at the lesson & pull the essential lesson out. They put too much in a lesson. We design it #2ndchat

02-Aug-12 00:55 | missmac100

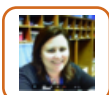

@MrsMorgansClass Part of my problem is the curriculum we use...long winded on whole group! I'll have to shorten it. #2ndchat

02-Aug-12 00:55 | NikiOhsBarnes

@NikiOhsBarnes That's what I'm saying. We need to design it. We are the ones who can change it and alter it to be better #2ndchat

02-Aug-12 00:56 | missmac100

Weed it out! RT @NikiOhsBarnes:Part of my problem is the curriculum we use...long winded on whole group! Ill have to shorten it. #2ndchat
